

## Rules and Guidelines for MYSAs Coaches and Teams

Call the school in late August to set a time for fall activities facility use. This would include volleyball and football and maybe soccer. This will be scheduled through the AD. Please adhere to these times. Do the same for winter and spring facility use. If there is a sign up time for teams, if notified, the AD will try to be there to sign the gyms' usage at that time.

If there is a conflict with a High School or Jr. High game, understand that your practices will get bumped. Please work with the other coaches to share gym times and space so that you can get a practice in for that week. **If you get to practice early and the High School or Jr. High is still in session, please wait in the commons until they are finished. Please do not interfere.**

Check the **Clipper** as sometimes the schedules change on a weekly basis as problems arise throughout the year. We try to get changes in the **Clipper** if we know about them but sometimes it doesn't make it.

When you are in the gym, you as the coaches are responsible for the behavior of **ALL** the people you let in. **That means you should not let little brothers and sisters of the players and kids of the coaches run wild in the school. The team will be responsible for things that are broken and will have to pay the school for the damage.**

**If the fire alarm gets pulled, you as coaches are responsible. There is the possibility of a FEE being charged for false alarms to the school and other places. If that happens the team or person responsible for this alarm will pay the FEE. Little kids not supervised are usually responsible.**

Please furnish your own balls and small equipment. **Please do not allow the kids and parents to kick the balls or throw them around without a purpose. Too many things are getting damaged.**

If you are the last ones in the gym, please put the systems away and up. If you need to be showed how to do this contact the AD and a time will be set, to be shown how to do it.

**DO NOT get the recess balls out.** Many times in the last year balls were left out for the custodial staff to pick up. It is not their job. They DO NOT have time to do this.

We need to work together. **The school, it is there to be used, but it is getting abused.**

MYSAs Tournaments will also have scheduled time over practices. So as soon as you know the tournament dates let the AD know so it can get on the calendar.
